Thanks to [Your Name], you

have helped Prevent a Coral Catastrophe

Red and pink coral are precious. Unfortunately, over-harvesting has led to dramatic declines in many coral populations. With this gift, you are helping WWF to control its trade and to develop a species guide for use in identifying colonies for protection.

Dr. Marco Lambertini
Director General, WWF-International

WWF works to address global threats and protect endangered species and habitats in more than 100 countries around the world. WWF finds long term solutions to benefit people and nature.
